*This education project is conducted by the TOS in Pakistan. The Qandeel home-schools enable children, young girls and women who have no opportunity to pursue even a basic education, to attend classes. Reading, writing and arithmetic are taught by a teacher who holds classes at her own house which is in the same locality as the students. The teachers meet regularly for professional development. These schools provide life-changing opportunities. All donated funds are spent on the schools, since administrative tasks in both Australia and Pakistan are done by volunteers.*
